INDEPENDENT AUDITOR'S REPORT

Board of County Road Commissioners Otsego County Road Commission 669 West McCoy Road Gaylord, Michigan 49734

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, major fund and the aggregate remaining fund information of the Otsego County Road Commission (a component unit of Otsego County, Michigan) as of and for the year ended December 31, 2019, and related notes to the financial statements, which collectively comprise the Road Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, major fund and the aggregate remaining fund information of the Otsego County Road Commission, as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, employee retirement and benefit systems, budgetary comparison schedules on pages 4 through 8, pages 34 through 41 and pages 42 through 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Otsego County Road Commission's basic financial statements. The schedules of analysis are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

Board of County Road Commissioners Otsego County Road Commission

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 19, 2020, on our consideration of the Otsego County Road Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Otsego County Road Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Otsego County Road Commission's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Using This Annual Report

The Otsego County Road Commission's discussion and analysis is designed to: (a) assist the reader in focusing on significant financial issues; (b) provide an overview of the Road Commission's financial activity; (c) identify changes in the Road Commission's financial position (its ability to address the next and subsequent year challenges); (d) identify any material deviations from the approved budget; and (e) identify any issues or concerns.

Reporting the Road Commission as a Whole

The statement of net position and the statement of activities report information about the Road Commission as a whole and about its activities in a way that helps answer the question of whether the Road Commission as a whole is better off or worse off as of a result of the year's activities. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting method, used by most private-sector companies. All of the year's revenues and expenses are taken into account regardless of when cash is received or paid.

The two statements mentioned above, report the Road Commission's net position and the changes in them. The reader can think of the Road Commission's net position (the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources) as one way to measure the Road Commission's financial health or financial position. Over time, increases or decreases in the Road Commission's net position are one indicator of whether its financial health is improving or deteriorating.

Reporting the Road Commission's Major Fund

Our analysis of the Road Commission's major fund begins on page 11. The fund financial statements begin on page 44 and provide detailed information about the major fund. The Road Commission currently has only one major fund, the general operations fund, in which all of the Road Commission's activities are accounted. The general operations fund is a governmental fund type.

- Governmental funds focus on how money flows into and out of this fund and the balances left at year end that are available for spending. This fund is reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Road Commission's general governmental operations and the basic service it provides. Governmental fund information helps the reader to determine whether there are more or fewer financial resources that can be spent in the near future to finance the Road Commission's services. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and the governmental fund in a reconciliation following the fund financial statements.
- Fiduciary fund The Road Commission is trustee, or fiduciary, for its employees' health care plan. The Road Commission is responsible for ensuring that the assets reported in the fiduciary funds are used for their intended purposes. All of the Road Commission's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the Road Commission's government-wide financial statements because the Road Commission cannot use these assets to finance its operations.

The Road Commission as a Whole

The Road Commission's Net Position increased 14.89% from \$29,106,090 to \$33,439,305 for the year ended December 31, 2019. The Net Position and Change in Net Position are summarized below.

Unrestricted Net Position improved \$2,783,048. The primary reasons were related to pension and OPEB liabilities and state funding.

Net Position as of the years ended December 31, 2018 and 2019 follows:

	Governmental Activities			
	2018	2019		
Current Assets Capital Assets	\$ 6,718,593 36,050,865	\$ 8,354,154 36,988,830

A summary of Changes in Net Position for the years ended December 31, 2018 and 2019 follows:

The Road Commission's Fund

The Road Commission's general operations fund is used to control the expenditures of Michigan Transportation Fund monies distributed to the County which are earmarked by law for road and highway purposes.

For the year ended December 31, 2019, the fund balance of the general operations fund increased \$1,257,008 as compared to an increase of \$324,600 in the fund balance for the prior year. Total revenues were \$11,968,214, an increase of \$65,570 as compared to last year. This change in revenues resulted primarily from federal sources.

Total expenditures were \$10,711,206, a decrease of \$866,838. The decrease is largely due to principal payments and capital outlay.

Budgetary Highlights

Prior to the beginning of any year, the Road Commission's budget is compiled based upon certain assumptions and facts available at that time. During the year, the Road Commission board acts to amend its budget to reflect changes in these original assumptions, facts and/or economic conditions that were unknown at the time the original budget was compiled. In addition, by policy, the board reviews and authorizes large expenditures when requested throughout the year.

The revenue budget for 2019 was \$806,286 more than the actual receipts. This was due, in part, to the projection of federal and state grants. The Road Commission budgets for the receipt of funds for projects on primary and local roads as earned.

Road Commission expenditures were projected at \$12,774,500 while actual expenditures were \$10,711,206. This resulted in total expenditures being under budget by \$2,063,294. There were several items that account for the variance in the projection of the budget.

Capital Assets

As of December 31, 2018 and 2019, the Road Commission had invested in capital assets as follows:

	2018			2019
Capital Assets Not Being Depreciated Land and Improvements	\$	11,647,119	\$	12,458,773
Other Capital Assets Buildings Road Equipment Other Equipment and Assets Infrastructure		3,936,130 7,656,680 164,088 35,110,983		3,936,130 8,064,358 168,887 37,109,555
Total Capital Assets at Historic Cost		58,515,000		61,737,703
Total Accumulated Depreciation		(22,464,135)		(24,748,873)
Total Net Capital Assets	\$	36,050,865	<u>\$</u>	36,988,830
r additions included the following:				
Land Improvements Various Resurfacing Projects and Bridges Trucks/Equipment/Other	<u>\$</u> \$	757,135 2,881,339 877,895	<u>\$</u> <u>\$</u> \$	811,654 2,182,824 436,805

Debt

Major

The Road Commission currently has long-term debt in the amount of \$9,584,462 which represents bond payments, bank loans, equipment financing, net pension liabilities, health benefit obligations, and vested employee benefits.

Economic Factors and Next Year's Budget

The Board of County Road Commissioner's considered many factors when setting the fiscal year 2020 budget. One of the factors is the economy. The Road Commission derives approximately 60% of its revenues from the fuel tax collected. The economic changes have resulted in stable consumption of fuel and consequently stable Michigan Transportation Funds to be distributed. As an increase in funding occurs, road projects will be increased.

The board realized, and the reader should understand, that there are not sufficient funds available to repair and/or rebuild every road in Otsego County's transportation system. Therefore, the board attempts to spend the public's money wisely and equitably and in the best interest of the motoring public and the citizens of the County.

Contacting the Road Commission's Financial Management

This financial report is designed to provide the motoring public, citizens and other interested parties a general overview of the Road Commission's finances and to show the Road Commission's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Otsego County Road Commission administrative offices at 669 W. McCoy Road, P.O. Box 537, Gaylord MI 49734.

Otsego County Road Commission

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Fund to the Statement of Activities For the Year Ended December 31, 2019

Net Change in Fund Balance - Total Governmental Funds	\$ 1,257,008
Amounts reported for governmental activities in the statements are different because:	
Governmental funds report capital outlays and infrastructure costs as	
expenditures. However, in the statement of activities, the cost of those assets is	
allocated over their estimated useful lives as depreciation expense. This is the	
amount by which capital outlay exceeded depreciation and retirements in the current period.	937,965
Repayment of notes/bonds payable is an expenditure in governmental funds, but	
reduces the long-term liabilities in the statement of net position. Note proceeds	
provide current financial resources to governmental funds, but entering into loan	
agreements increases long-term liabilities in the statement of net position.	612,202
Some expenses reported in the statement of activities do not require the use of	
current financial resources and therefore are not reported as expenditures in the	
governmental funds.	 1,526,040

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Otsego County Road Commission conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Otsego County Road Commission.

A. Reporting Entity

The Otsego County Road Commission, which is established pursuant to the County Road Law (MCL 224.1), operates under an elected board of five (5) County Road Commissioners who establish policies and review operations of the Road Commission. An alternating Road Commissioner is elected biannually to serve a six-year term.

The criteria established by the Governmental Accounting Standards Board 61, "The Financial Reporting Entity," for determining the reporting entity includes oversight responsibility, fiscal dependency and whether the financial statements would be misleading if the component unit data were not included. Based on the above criteria, these financial statements present the Otsego County Road Commission, a discretely presented component unit of Otsego County.

The Road Commission Operating Fund is used to control the expenditures of Michigan Transportation Fund moneys distributed to the County, which are earmarked by law for street and highway purposes. The Board of County Road Commissioners is responsible for the administration of the Road Commission Operating Fund.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Otsego County Road Commission. There is only one fund reported in the government-wide financial statements.

The statement of net position presents the Road Commission's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as either invested in capital assets or restricted net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for the operating fund (governmental fund). The operating fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. Major individual governmental funds are reported as separate columns in the fund financial statements. The operating fund is the only major fund of the Commission.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Michigan transportation funds, grants, permits, township contributions and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government. Under the terms of grant agreements, the Commission funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the Commission's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

Cash, Equivalents and Investments

Cash and equivalents are considered to be cash on hand, demand deposits and short-term investments with a maturity of three months or less when acquired. All deposits are recorded at cost.

Inventories

Inventories are priced at cost as determined on the average unit cost method. Inventory items are charged to road construction and maintenance, equipment repairs and operations as used.

Prepaid Items

Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both the government-wide and fund financial statements.

Property Taxes Receivable

The property tax is levied each December 1st. on the taxable valuation of property located in the County as of the preceding December 31st. The 2019 taxable valuation of \$1,296,529,445 for Road Millage amounted to \$1,296,529 less \$185,012 for cities and villages, (on which ad valorem taxes of 1.0000 mills were levied) for road maintenance purposes resulted in a net total of \$1,111,517.

Notes to Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the government-wide financial statements, the tax is recorded as revenue when the tax is levied in the current year. Although the County's 2019 ad valorem tax is levied and collectible December 1, 2019, it is the Road Commission's policy to recognize revenues from the current tax levy in the subsequent year. When the proceeds of this levy are budgeted and made available for the financing of the Road Commission's operations in the governmental fund financial statements. The tax receivable is offset to deferred inflows.

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges and similar items), are reported in the operating fund in the government-wide financial statements. Capital assets are defined by the Otsego County Road Commission as assets with an initial individual cost of more than \$1,000 and/or an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost of purchase or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Depreciation

Depreciation is computed on the sum-of-the-years'-digits method for road equipment and straight-line method for all other assets. The depreciation rates are designed to amortize the cost of the assets over their estimated useful lives as follows:

Buildings	30 to 50 years
Road Equipment	5 to 8 years
Shop Equipment	10 years
Engineers' Equipment	3 to 10 years
Office Equipment	4 to 10 years
Infrastructure – Roads	8 to 30 years
Infrastructure – Bridges	12 to 50 years

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Road Commission has pension items that qualify for reporting in this category.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position and governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Road Commission has property taxes, pension and OPEB items that qualify for reporting in this category.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pension and Other Post Employment Benefits

For purposes of measuring the net pension and OPEB liability, deferred outflows of resources and deferred inflows of resources and fringe expense, information about the fiduciary net position of the Plans and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the actuary. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the operating fund statement of net position.

Vested Employee Benefits (Vacation and Sick Leave)

Substantially all employees of the Road Commission can accumulate vacation hours based on years of service from 40 hours to 200 hours of paid time off. Sick leave is paid up to 350 hours upon retirement or upon death. Sick leave is earned at 8 hours per month for union employees. Vacation leave and sick leave amounted to \$87,219 and \$164,999 respectively.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, outflows, liabilities and inflows, and affect the disclosure of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions also affect the reported amounts of revenue and expenditures during the reporting period. Actual results could differ from those estimates.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the Road Commission is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- <u>Nonspendable</u>: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The Road Commission has classified inventories and prepaid items as being Nonspendable as these items are not expected to be converted to cash within the next year.
- <u>Restricted</u>: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- <u>Committed</u>: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.
- <u>Assigned</u>: This classification includes amounts that are constrained by the Board's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.
- <u>Unassigned</u>: This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The Board would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Procedures

Budgetary procedures are established pursuant to PA 2 of 1968, as amended, which requires the County Board of Road Commissioners to approve a budget for the County Road Fund. The Manager prepares a budget in accordance with the Act which is adopted by the Board at a public hearing each December. All budgets lapse at fiscal year end. Any violations of the Act are indicated on page 43.

NOTE 3 - CASH AND EQUIVALENTS

Michigan Compiled Laws, Section 129.91, authorizes the Road Commission to deposit and invest in the accounts of federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or federal agency obligation repurchase agreements; banker's acceptance of United States banks; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date purchased; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan.

Notes to Financial Statements December 31, 2019

NOTE 3 - CASH AND EQUIVALENTS (Continued)

The Road Commission has adopted an investment policy, which is in accordance with the provisions of Public Act 196 of 1997.

		arrying mount		Financial Institution Balance
Petty Cash Bank Deposits (Checking & Savings Accounts and	\$	700		
Certificates of Deposit) Investments at Fair Value		3,452,171 1,489,875	<u>\$</u>	3,433,179
Total Cash and Equivalents	<u>\$</u>	4,942,746		

Interest rate risk. The Road Commission does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk. State law limits investments in commercial paper, corporate bonds, and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The Road Commission has an investment policy that could further limit its investment choices.

Custodial deposit credit risk. Custodial deposit credit risk is the risk that in the event of a bank failure, the Road Commission's deposits may not be returned. State law does not require and the Road Commission does not have a policy for deposit custodial credit risk. As of year end, \$2,754,127 of the Road Commission's bank balance of \$3,433,179 was exposed to credit risk because it was uninsured and uncollateralized.

Custodial investment credit risk. Investment custodial credit risk is the risk that in the event of the failure of the counterparty, the Commission will not be able to recover the value of its investments or securities that are in the possession of an outside party. The Commission invests with the County of Otsego and would receive its proportional share of holdings.

Fair value measurement. The Commission categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or equivalent) as a practical expedient are not classified.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Commission's assessment of the significance of particular inputs to these fair value measurements required judgment and considers factors specific to each asset or liability. The Road Commission had the following investments as part of the Otsego County pool or separately owned:

Investment Type Fixed Income Debt Securities:	Fair Value	Level 1	Level 2	Level 3	Credit Rating	Concen- tration
U.S. Government	<u>\$ 1,489,875</u>	<u>\$</u>	<u>\$ 1,489,875</u>	<u>\$</u>	AA+	100%
OPEB Trust Pool	<u>\$ 1,117,717</u>	<u>\$</u>	<u>\$ 1,117,717</u>	<u>\$ </u>	Unrated	100%

Notes to Financial Statements December 31, 2019

NOTE 4 - CAPITAL ASSETS

Capital asset activity of the Otsego County Road Commission for the current year was as follows:

		Beginning Balances		A 114	Adjustments/		Ending Balances

Depreciation expense was charged to programs of the Otsego County Road Commission as follows:

Infrastructure - unallocated	\$ 1,743,727
Equipment Expense	657,907
Administrative	10,744
Other Allocated	 80,522
Total Depreciation Expense	\$ 2,492,900

NOTE 5 - EMPLOYEE RETIREMENT AND BENEFITS SYSTEMS

Description of Plan and Plan Assets

The Road Commission is in an agent multiple-employer defined benefit pension plan with the Municipal Employees' Retirement System (MERS). The system provides the following provisions: normal retirement, deferred retirement and service retirement to plan members and their beneficiaries. The service requirement is computed using credited service at the time of termination of membership multiplied by the sum of 2.50% times the final compensation (FAC). The most recent period of which actuarial data was available was for year ended December 31, 2018.

General Information about the Pension Plan

Plan Description. The employer's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. The employer participates in the Municipal Employees Retirement System (MERS) of Michigan. MERS is an agent multiple-employer, statewide public employee pension plan established by the Michigan Legislature under Public Act 135 of 1945 and administered by a nine-member Retirement Board. MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the MERS website at www.mersofmich.com.

Early Retirement (Reduced):	50/25			
-	55/15			
Final Average Compensation:	5 years			
Employee Contributions:	4.0%			
Act 88:	Yes (Adopted 11/23/1970)			

Employees Covered by Benefit Terms

At December 31, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	50
Inactive employees entitled to but not yet receiving benefits	9
Active employees	31
	90

Funding Policy

The obligation to contribute to and maintain the system for these employees was established by negotiation with the Road Commission's competitive bargaining unit and personnel policy, which require employees to contribute to the plan. The Road Commission is required to contribute at an actuarially determined blended rate for 2019 of 33.65% of nonunion payroll and 27.20% of general employees.

Net Pension Liability

The Road Commission's net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 %
Salary increases	3.75 %
Investment rate of return	7.75 %, net of interest and administrative
	expense including inflation

Mortality rates used were based on the RP-2014 Mortality Table of a 50% Male and 50% Female blend.

The actuarial assumptions used in valuation were based on the results of the most recent actuarial experience study of January 1, 2009, through December 31, 2013.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

A (C1	TT (A 11)	Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Global Equity	55.5%	3.42%
Global Fixed Income	18.5%	0.23%
Real Assets	13.5%	0.97%
Diversifying Strategies	12.5%	0.63%

Discount Rate. The discount rate used to measure the total pension liability is 8.00% for 2019. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability:

	Increases (Decreases)					
Balances at December 31, 2018		otal Pension Liability		an Fiduciary let Position	Net Pension Liability	
		12,807,573	\$	7,163,277	\$	5,644,296
Service cost Interest on total pension liability		181,390 997,328		-		181,390 997,328
Changes in benefits Difference between expected and actual experience		(187,144)		-		(187,144)
Changes in assumptions Employer contributions Employee contributions		-		1,135,488 87,733		(1,135,488) (87,733)
Net investment income Benefit payments, including employee refunds		(863,330)		1,016,274 (863,330)		(1,016,274)
Administrative expense Other changes		(19,581)		(17,601)		17,601 (19,581)
Net changes		108,663		1,358,564		(1,249,901)
Balances as of December 31, 2019	\$	12,916,236	\$	8,521,841	\$	4,394,395

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the Road Commission, calculated using the discount rate of 8.00%, as well as what the Road Commission's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage-point higher (9.00%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase	
	(7.00%)	(8.00%)	(9.00%)	
Road Commission's net pension liability	\$5,727,163	\$4,394,395	\$3,253,505	

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued MERS financial report.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2019, the Road Commission recognized pension expense of \$684,239. At December 31, 2019, the Road Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	D Ou Ro	Deferred Inflows of Resources		
Difference between expected and actual experience Changes in assumptions Net difference between projected and actual earnings	\$	89,923	\$	-
on pension plan investments		-		136,964
Total	\$	89,923	\$	136,964

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recorded in pension expense as follows:

Year Ended December 31:		
2020	\$	62,945
2020	Ŷ	(115,030)
2022		90,948
2023		(85,904)

Annual Pension Cost

During the year ended December 31, 2019, the Road Commission's contributions totaling \$1,135,488 were made in accordance with contribution requirement determined by an actuarial valuation of the plan as of December 31, 2017. The employer contribution rate has been determined based on the entry age normal funding method. Under the entry age normal cost funding method, the total employer contribution is comprised of the normal cost plus the level annual percentage of payroll payment required to normal cost is, for each employee, the level percentage of payroll contribution (from entry age to retirement) required to accumulate sufficient assets at the member's retirement to pay for his projected benefit. Significant actuarial assumptions used include a long-term investment yield rate of 8 percent and annual salary increases of 4.5 percent based on an age-related scale to reflect merit, longevity, and promotional salary increases. The unfunded actuarial liability is amortized as a level percent of payroll on a closed basis. The remaining amortization period is 22 years.

NOTE 6 - FEDERAL GRANTS

The Michigan Department of Transportation (MDOT) requires that all Road Commissions report all federal and state grants pertaining to their county. During the year ended December 31, 2019, the federal aid received and expended by the Road Commission was \$836,989 for contracted projects. Contracted projects are defined as projects performed by private contractors paid for and administrated by MDOT (they are included in MDOT's single audit). Local administered projects are projects where the Road Commissions perform the work and would be subject to single audit requirements if they expended \$750,000 or more. Local projects amounted to \$0.

NOTE 7 - STATE EQUIPMENT PURCHASE ADVANCE

State equipment purchase advance is determined by a formula applied to the book value of equipment of the previous fiscal year. This amount is adjusted each fiscal year in accordance with the formula and would be refunded to the State Department of Transportation upon termination of the State Highway Maintenance Contract.

NOTE 8 - LONG-TERM DEBT

The long-term debt of the Road Commission is summarized as follows:

	-	Balance)1/01/19	Ad	<u>ditions</u>	Red	uctions	Balance 12/31/19	Due Within One Year
Otsego County Building Authority Bonds Payable – 2011 Series, payable general obligation, serial maturity, 3.25% to 5.00% interest, due June 2031.	\$	655,000	\$	_	\$	655,000	\$ -	\$ -
Installment payable secured by equipment, payable in monthly installments of \$1,748 including interest of 2.19%, due 2020.		184,686		-		17,141	167,545	167,545
Installment payable secured by equipment, payable in monthly installments of \$113 including interest of 2.69%, due 2020.		93,666		1,177		130	94,713	94,713

Notes to Financial Statements December 31, 2019

NOTE 8 - LONG-TERM DEBT (Continued)

Installment payable secured by equipment, payable in annual installments of \$14,122 including	Balance 01/01/19	Additions	Reductions	Balance 12/31/19	Due Within One Year
interest of 4.18%, due 2023.	81,659	67,150	8,258	140,551	8,239

(1) Net increase.

		Installments Payable			
Year End December 31	F	rincipal	Interest		
2020	\$	270,497	\$	7,817	
2021		8,588		5,534	
2022		8,952		5,170	
2023		114,772		4,790	
Total	\$	402,809	<u>\$</u>	23,311	

NOTE 9 - OTHER POST EMPLOYMENT BENEFITS

The Otsego County Road Commission provides hospitalization and medical coverage for eligible retirees and their spouses through the Road Commission's group health insurance plan, which covers both active and retired members. The following are the Governmental Accounting Standards Board Statement 74 and 75 required disclosures which have been implemented prospectively by the Road Commission.

• Employees hired prior to December 31, 2008, and retire with 20 years of employment and age 55 years, or greater, will receive health insurance comparable to that provided to the current employees until age 65 years and supplemental health insurance for the employee and spouse for their lifetimes.

The plan does not issue a separate stand-alone financial statement.

Funding Policy - Contribution requirements also are negotiated between the Commission and employees. The Commission contributes 100% of the cost for eligible plan members. For fiscal year 2019, the Commission contributed \$769,649 to the plan.

Employees Covered by Benefit Terms

As of December 31, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments Inactive employees entitled to but not yet receiving benefits	37
Active employees Total participants covered by OPEB Plan	<u> 16</u> <u> 53</u>

NOTE 9 - OTHER POST EMPLOYMENT BENEFITS (Continued)

Total OPEB Liability and Trust Assets - The Road Commission's total OPEB liability of \$5,650,645 was measured as of December 31, 2018, and was determined by an actuarial valuation as of that date.

As of December 31, 2019, there was \$1,117,717 in assets in the Road Commission's OPEB trust.

Actuarial assumptions and other inputs - The total OPEB liability was determined by an actuarial valuation as of December 31, 2019 and the following actuarial assumptions, applies to all periods included in the measurement:

Inflation	Included in investment rate of return
Salary Increases	3.50%
Investment rate of return	7.00%
Mortality	2010 Public General Employees and Healthy Retirees, with MP–2019 mortality improvement.

The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return (expected returns, net of retirement plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the retirement plan's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Rate of Return
Global Equity	63.2%	8.00%
Global Fixed Income	30.5%	5.50%
Real Assets	3.1%	6.20%
Diversifying Strategies	2.1%	2.75%
Cash	1.1%	0.50%

The sum of each target allocation times its long-term expected rate is 7.0%.

Discount Rate - The discount rate used to measure the total OPEB liability was 4.47%. The projection of cash flows used to determine the discount rate assumed that Employer contributions of \$400,000 will be made until 40% funded. Based on those assumptions, the retirement plan's fiduciary net position was not projected to be sufficient to make all projected future benefit payments of current plan members. For projected benefits that are covered by projected assets, the long-term expected rate was used to discount the projected benefits. From the year that benefit payments were not projected to be covered by the projected assets (the "depletion date"), projected benefits were discount at a discount rate reflecting the 20-year AA/Aa tax-exempt bond yield. A single equivalent discount rate that yields the same present value of benefits is calculated. This discount rate of 3.40% is used to determine the Total OPEB Liability.

Notes to Financial Statements December 31, 2019

NOTE 9 - OTHER POST EMPLOYMENT BENEFITS (Continued)

OPEB Expense – Components of Road Commission's OPEB Expense for the fiscal year ending December 31, 2019 are as follows:

Changes in Assumptions	\$	(402,224)
Service Cost		87,279
Interest on Total OPEB Liability		208,114
Experience Losses		(141,420)
Projected Earnings on OPEB Plan Investments		(51,774)
Investment Earnings (Gains)/Losses		(5,898)
Administrative Expenses		1,159
Total OPEB Expense	<u>\$</u>	(304,764)

Deferred Outflows and Inflows of Resources Related to OPEB Plan

		Outflows ources	Deferred Inflows of Resources			
Experience (Gains)/Losses Changes of Assumptions	\$	-	\$	-		
Investment Earnings (Gains)/Losses	\$	<u>-</u>	\$	33,075		
1 otal	3	-	2	33,075		

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended December 31:	
2020	\$ (5,898)
2021	(5,898)
2022	(5,899)
2023	(15,380)

Notes to Financial Statements December 31, 2019

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Grants – The Road Commission has received significant financial assistance from state and federal agencies in the form of various grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreement and are subject to audit by the grantor agency. Any disallowed claims resulting from such audits could become a liability of the applicable fund of the Commission.

Risk Management – The Road Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Road Commission was unable to obtain general liability insurance at a cost it considered to be economically justifiable. The Road Commission joined together with other Road Commissions and created a public entity risk pool currently operating as a common risk management and insurance program. The Road Commission pays an annual premium to the pool for its general insurance coverage. The agreement provides that the pool will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$1,000 (\$2,000 for errors and omissions) for each insured event. The maximum limit of liability for each occurrence is \$10,500,000.

The pooling agreement allows for the pool to make additional assessments to make the pool self-sustaining. The Road Commission is unable to provide an estimate of the amounts of additional assessments.

The Road Commission from time to time is named as a defendant in accident claims and lawsuits requesting damages of various amounts, the majority of which do not state a specific maximum. Insurance coverage related to these claims and lawsuits, if any, is categorized under the general liability insurance program. It is the opinion of management and legal counsel that reasonable estimates of the Road Commission's current liability for these matters, if any, have been recorded.

There are nonaccident liability and condemnation lawsuits sometimes are pending against the Road Commission claiming amounts for damages and relief without stated limitations. It is the opinion of management and legal counsel that reasonable estimates of the Road Commission's current liability for these matters, if any, have been recorded.

NOTE 11 - SUBSEQUENT EVENTS

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of local units of government. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration of the closings. Therefore, the Commission expects this matter to negatively impact its operating results and revenues. However, the related financial impact and duration cannot be reasonably estimated at this time.

Required Supplementary Information

Contributions as a percentage of covered-employee payroll		36%		36%	53%	68%	68%

Notes to Schedule:

Actuarially determined contribution rates are calculated as of December 31st, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll, closed
Remaining amortization period	21 years
Asset valuation method	10-years smoothed market
Inflation	2.50%
Salary increases	3.75%
Investment rate of return	7.75%, net of interest and administrative expense including inflation
Retirement age	In the 2018 actuarial valuation, expected retirement ages of general
	employees were adjusted to more closely reflect actual experience
Mortality	Assumptions were based on the RP2014 Mortal
	Table - Blended 50% Male / 50% Female

Employee Retirement and Benefit Systems Required Supplementary Information Assumptions and Methods for Calculation of Actuarially Determined Contributions For the Year Ended December 31, 2019

Valuation Date	December 31, 2018						
Actuarial Methods							
Cost method	Entry Age Normal (level percentage of compensation)						
Amortization method	Level dollar						
Asset valuation method	Equal to market value of assets						

Actuarial Assumptions

Discount rate - 4.47% for December 31, 2019 liability and 2020 contribution Rationale - Blended rate based on long term expected return of 20-year Aa municipal bond rate

Salary scale - 3.50% Rationale - Employer experience and expectations

Return on plan assets - 7.00% Rationale - Consistent with plan investment experience

Mortality rates - 2010 Public General Employees and Health Retirees with MP-2019 mortality improvement Rationale - Current mortality rates available for municipalities

Termination rates - None Rationale - Small group

Retirement rates - 100% at first eligibility Rationale - Consistent with experience

Utilization - 100% of eligible employees will elect coverage at retirement Rationale - Historical

Marital status - not applicable Rationale -Future retirees are not eligible for employer paid spouse coverage

Employee Retirement and Benefit Systems Required Supplementary Information Assumptions and Methods for Calculation of Actuarially Determined Contributions For the Year Ended December 31, 2019

Pre-65 medical claims cost - See monthly rates below

Rationale - Actual age-graded premiums in effect as of January 1, 2019

Blue Care Network HRA											
Age	Pe	r Person									
55	\$	680.64									
56		712.08									
57		743.82									
58		777.70									
59		794.49									
60		828.37									
61		857.67									
62		876.89									
63		901.01									
64		915.65									

Pre-65 medical claims cost - See monthly rates below

Rationale - Actual premiums in effect as of January 1, 2019

Coverage	Per Person
Blue Care Network	\$ 395.82
Humana	337.00

HRA load - \$4,500 per person pre-65

Rationale - Maximum deductible reimbursement for pre-65 retirees and spouses

Implicit Subsidy - Not applicable

Rationale - Pre-65 premiums are age-graded so there is no implicit subsidy

Medical trend

Pre-65 - 8.5% graded down to 4.5% by 0.25% per year Post-65 - 7.5% graded down to 4.5% by 0.25% per year Rationale - Based on State of Michigan trend survey

Data Collection

Date and form of data - All personnel and asset data was prepared by the plan sponsor or a representative and was generally relied upon as being correct and complete without audit by Watkins Ross

Assumption changes since prior valuation	
Discount rate	4.26%
20-year Aa municipal bond rate	3.00%

Otsego County Road Commission

Employee Retirement and Benefit Systems Required Supplementary Information Summary of Plan Provisions For the Year Ended December 31, 2019

Plan name	Otsego County Road Commission Retiree Health Plan
Eligibility requirements	Hired prior to December 31, 2008 and retire with at least 20 years of employment and age 55 years
Benefits	
Retirement prior to 2011	Lifetime health coverage for the retiree and spouse
Retirement from 2011 through 2015 Pre-65	Coverage for the retiree and spouse and annual reimbursement of deductible up to \$4,500 per person
Post-65	Employer paid supplemental coverage for the retiree and spouse capped at \$350 per month per person
Retirement after 1/1/2016	
Pre-65	Coverage for the retiree and annual reimbursement of deductible up to \$4,500
Post-65	None
Retiree contribution	Balance of premium not paid by the employer
Changes since prior valuation	None

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of County Road Commissioners Otsego County Road Commission 669 West McCoy Road Gaylord, Michigan 49734

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, major fund and the aggregate remaining fund information of the Otsego County Road Commission (a component unit of Otsego County, Michigan), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Otsego County Road Commission's basic financial statements and have issued our report thereon dated June 19, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Otsego County Road Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Otsego County Road Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Otsego County Road Commission's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be significant deficiencies listed as 2019-001 and 2019-002.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Otsego County Road Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards*, and which is described in the accompanying schedule of findings and responses as items 2019-002.

Otsego County Road Commission's Response to Findings

The Otsego County Road Commission's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The Otsego County Road Commission's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

anderson Jackman, Co. P.C.

Anderson, Tackman & Company, PLC Certified Public Accountants Kincheloe, Michigan

June 19, 2020

Schedule of Findings and Responses For the Year Ended December 31, 2019

Significant Deficiency - Internal Control

<u>Preparation of the Financial Statements in Accordance</u> with Generally Accepted Accounting Principles

Finding 2019-001

Specific Requirement: Establishment and maintenance of internal control over the financial reporting process as defined by Statement on Auditing Standards Number 115 requires management to prepare annual audit statements in accordance with GASB Statement Number 34. (Audit report format)

Criteria: Internal controls should be in place to provide reasonable assurance to the Commission that management reports financial statements (with GASB Statement number 34 formats) necessary to monitor and report annual financial activity without auditor intervention.

Condition: Auditor modifies financial statements and footnotes to comply with governmental generally accepted accounting principles.

Effect: The effect of this condition places a reliance on the independent auditor as part of the Commission's internal controls over financial reporting.

Cause: Change in application of auditing standard.

Recommendation: The Commission should consider subcontracting financial statement preparation activities to monitor and report annual financial activity in accordance with GASB Statement Number 34 or train staff to accomplish this element.

Planned Corrective Action: In the past, the Board has relied on the auditors for this type of reporting for cost effectiveness. Due to limited resources, management does not wish to allocate additional funds to change this process. Management reviews adjustments for accuracy upon completion and reconciles discrepancies and other disclosures.

• Contact Person(s) Responsible for Correction: Jason Melancon, Manager

Schedule of Findings and Responses For the Year Ended December 31, 2019

Significant Deficiencies – Noncompliance with State Statutes

Expenditures in Excess of Appropriations—Budgetary Funds

Criteria: The expenditures of funds in excess of appropriations are contrary to the provisions of Section 16 of Public Act 2 of 1968, as amended.

Condition: Our examination of procedures used by the Road Commission to adopt and maintain operating budgets for the Road Commission's budgetary fund revealed the following instances of noncompliance with the provisions of Public Act 2 of 1968, as amended, the Uniform Budgeting and Accounting Act.

The Road Commission's 2019 General Appropriations Act (budget) provided for expenditures of the General Fund to be controlled to the activity level. As detailed, actual 2019 expenditures exceeded the board's approved budget allocations for some general fund activities.

During the fiscal year ended December 31, 2019, expenditures were incurred in excess of amounts appropriated in the amended budgets for the General Fund as listed on page 43 of the financial statements.

Effect: Condition's may violate State Law.

Cause: Unknown.

Recommendation: We recommend that the Road Commission's chief administrative officer and personnel responsible for administering the activities of the various funds of the Road Commission, develop budgetary control procedures for the General Fund which will assure that expenditures do not exceed amounts authorized in the General Appropriations Act, or amendments thereof.

Planned Corrective Action: Amounts will be maintained in the future. Most of the expenditure variance was related to projects reported to the Road Commission subsequent to year end. We do not anticipate this circumstance in the future.

COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

Board of County Road Commissioners Otsego County Road Commission 669 West McCoy Road Gaylord, Michigan 49734

We have audited the financial statements of the governmental activities, major fund and the aggregate remaining fund information of the Otsego County Road Commission (a component unit of Otsego County, Michigan) for the year ended December 31, 2019, and have issued our reports thereon dated June 19, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards* as well as certain information related to the planned scope and timing of our audit. Professional standards also require that we communicate to you the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards and Government Auditing Standards

As stated in our engagement letter dated March 23, 2020, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

As part of our audit, we considered the internal control of the Otsego County Road Commission. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the Otsego County Road Commission's compliance with certain provisions of laws, regulations, contracts, and grants. However, the objective of our tests was not to provide an opinion on compliance with such provisions.

Generally accepted accounting principles provide for certain required supplementary information (RSI) to supplement the basic financial statements. Our responsibility with respect to the management's discussion and analysis, schedule of funding progress, and budgetary comparison schedules, which supplement the basic financial statements, is to apply certain limited procedures in accordance with generally accepted auditing standards. However, the RSI will not be audited and, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance, we will not express an opinion or provide any assurance on the RSI.

Otsego County Road Commission Page 2

We have been engaged to report on other schedules which accompany the financial statements but are not RSI. Our responsibility for this other information, as described by professional standards, is to evaluate the presentation of the other information in relation to the financial statements as a whole and to report on whether the other information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in your March 23, 2020 Board Packet.

Significant Audit Findings

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Otsego County Road Commission are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year. We noted no transactions entered into by the Road Commission during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Management's estimate of the depreciation expense is based on estimated lives. We evaluated the key factors and assumptions used to develop the estimate to determining that it is reasonable in relation to the financial statements taken as a whole.
- Management's estimate of the vested employee benefits is based on current hourly rates and policies.
- Management's estimate of the amounts for OPEB liabilities and Pension liabilities and investments were based on various assumptions regarding life expectancies, inflation, premium increases, and investment rates.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. In addition, there were no misstatements detected as a result of audit procedures and corrected by management that were material, either individually or in the aggregate, to the financial statements taken as a whole. A copy of any adjustments are available from management.

Disagreement with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 19, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us as to determine the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Comments and Recommendations

Excess Expenditures Over Appropriations (Prior)

Public Act 621 of 1978, Section 18(1), as amended, provides that a local unit of government shall not incur expenditures in excess of the amount appropriated. In the body of the financial statements, the Road Commission's actual expenditures were in excess of amounts appropriated for certain line items as indicated on the Statement of Expenditures – Budget and Actual.

Status: Some items were over due to unanticipated billings after year end.

Parts Management (Prior)

HMS software utilized by the Road Commission has a parts management module which would assist in the purchasing, inventory, and usage reporting of parts and other nonstock inventory items. Implementation of this software would increase internal control over parts management and eliminate redundant inventory procedures currently in practice. We strongly recommend the implementation of inventory software.

We reviewed parts and other material for obsolete items. Our procedures indicated that approximately 80 percent of items have not changed over a two year period which may indicate items should be scrapped or charge out processes are incomplete or pricing errors. The Road Commission should conduct a review of parts and handling costs and reduce theft risk.

Status: Corrected.

Otsego County Road Commission Page 4

Single Approach for Reporting Leases (Prior Year)

The Governmental Accounting Standards Board (GASB) issued guidance that establishes a single approach to accounting for and reporting leases by state and local governments. The single approach is based on the principle that leases are financing of the right to use an underlying asset.

GASB Statement No. 87, *Leases*, provides guidance for lease contracts for nonfinancial assets – including vehicles heavy equipment, and buildings – but excludes nonexchange transactions, including donated assets, and leases of intangible assets.

Under the new Statement a lessee government is required to recognize (1) a lease liability and (2) an intangible asset representing the lessee's right to use the leased asset. A lessor government is required to recognize (1) a lease receivable and (2) a deferred inflow of resources. A lessor will continue to report the leased asset in its financial statements.

A lease also will report the following in its financial statements:

- Amortization expense for using the lease asset (similar to depreciation) over the shorter of the term of the lease or the useful life of the underlying asset.
- Interest expense on the lease liability
- Note disclosures about the lease, including a general description of the leasing arrangement, the amount of the lease assets recognized, and a schedule of future lease payments to be made.

Limited exceptions to the single-approach guidance are provided for:

- Short-term leases, defined as lasting a maximum of 12 months at inception, including any options to extend.
- Financial purchases
- Certain regulated leases, such as between municipal airports and air carriers.

The full text of Statement 87 is available on the GASB website, www.gasb.org.

Status: To be implemented by 2021.

Prepaid Items (Prior)

Although the ledger contains twelve months of financial activity, the Board should enact accounting procedures to identify prepaid expense items such as health insurance and liability coverage. Amortization of these costs should be posted to proper periods of coverage in accordance with accounting principles.

Status: Corrected.

Employee Withholding Forms (Prior)

Due to the significant changes recently enacted with the 2019 Tax Cuts and Jobs Act, the Board should consider having employees update their Form W4 – Employee's Withholding Allowance Certificate. Tax rate, credit and deduction changes have impacted federal income tax withheld from gross pay.

Status: Implemented.

Public Act 202 of 2017 (Prior)

Public Act 202 of 2017 required local units of government with employee retiree healthcare plans to provide adequate funding. The Road Commission established a retiree healthcare program which is not adequately funded at 40% of the actuarially determined total liability. The Road Commission is not in compliance with the statute and must receive an approved waiver from the Michigan Department of Treasury or adequately fund this plan.

Status: A corrective action plan has been implemented and accepted by the Treasury department.

Board Clerk Appointment – Organizational Meeting

The board has not formally appointed a Road Commission "Clerk" to the board in several years. As part of the organizational meeting each year, the Board should consider appointing a "Clerk" or Secretary to the Board to assist in executing board approved documents, certifying board actions and other official duties in Accordance Section 224.9 of Public Act 283 of 1909. Additionally, at the first meeting of the calendar year, the Board should elect officers, appoint legal counsel, approved bank accounts and signors and other organizational tasks in accordance with "Robert's Rules of Order" for board procedures.

Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period

Effective for fiscal years beginning after December 15, 2019 (fiscal year 2021). This Statement establishes accounting requirements for interest cost incurred before the end of a construction period.

Such interest cost includes all interest that was previously accounted for in accordance with the requirements of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statement prepared using the economic resources measurement focus.

Pension and OPEB Reporting – Form 5572

Public Act 202 of 2017 required governments to prepare additional reporting for pension and OPEB plans using Form 5572 (due 6 months after the end of your fiscal year). A memo was issued September 25, 2018 by Treasury regarding the application of uniform assumptions. For the purpose of reporting Form 5572, Treasury required uniform assumptions to be included on Form 5572 for fiscal years ending 2019, if the audited financial statements were based on an actuarial valuation issued after December 31, 2018. Reporting of pension and OPEB liabilities under the uniform assumptions is required no later than fiscal year end ending 2020 in all other cases. The full memo can be found at the following address:

https://www.michigan.gov/documents/treasury/FY_2020_Uniform_Assumptions-Treasurer_Approved__669313_7.pdf

Uniform assumptions will be used by Treasury to increase comparability of pension and OPEB plans from one municipality to the next. Treasury recommends all actuarial valuations issued after December 31, 2018 include the provisions of the uniform assumptions. It is important to consider whether using the uniform assumptions for the measurement of your municipality's pension or OPEB liabilities are appropriate under GAAP, or whether the liabilities should be calculated using two sets of assumptions. If using two sets of assumptions is appropriate, both amounts will be reported to Treasury.

Assumptions	Uniform Assumptions	Change from Fiscal Year 2019		
Investment Rate of Return	Maximum of 7.00%	None		
Discount Rate	 Blended discount rate calculated using GASB Statements No. 68 and 75 methodology For periods in which project plan assets are Sufficient to make Projected Benefit Payments: <u>Maximum of 7.00%</u> For period in which projected plan assets are Not Sufficient to make Projected Benefit Payments: 3.50% 	Increased the blended rate from 3% to 3.50% for periods in which plan assets are <u>not</u> sufficient to make project benefit payments		
Salary Increase	A minimum of 3.50% or based on an actuarial experience study conducted with in the last five years	None		
A version of the Pub-2010 mortality tables with future mortality improvement projected generationally using Scale MP-2018 or based on an actuarial experience study conducted within the last five years		Changed from RP-2014 it Pub- 2010 tables; Generational mortality improvement using Scale MP-2018		
Health Care Inflation (for Medical and Drug)	 Non-Medicare: Initial rate of 8.25% decreasing .25% per year to a 4.50% long-term rate Medicare: Initial rate of 6.50% decreasing .25% per year to a 4.50% long-term rate 	Non-Medicare: Initial rate reduce form 8.50% to 8.25% Medicare: Initial rate reduced from 7.00% to 6.50%		
	Local governments must amortize the unfunded actuarial accrued liability (UAAL) over a maximum closed period of			
Amortization of the Unfunded Actuarial Accrued Liability	 Pension systems: 19 years Retiree Health Care Systems: 29 years Closed plans must use a level-dollar amortization method 	 Pension: Closed period reduced from 20 years to 19 years Health Care: Closed period reduced from 30 years to 29 years 		
	Open plans may use a level-dollar or percent of pay amortization method			

Treasury has issued the following as the uniform assumptions for 2020:

Other Matters

We applied certain limited procedures to the management's discussion and analysis, schedule of funding progress, and budgetary comparison schedules, which is required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquires of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and our knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the other schedules which accompany the financial statements but are not RSI. With respect to this other information, we made certain inquires of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the other information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Conclusion

We would like to express our appreciation, as well as that of our staff for the excellent cooperation we received while performing the audit. If we can be of assistance, please contact us.

This information is intended solely for the use of the Otsego County Road Commission, the cognizant audit agencies and other federal and state agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
